

Was it a Good Year 2019

Chorus-

Was it a good year
We got a new song
You can shout it out
Or you can sing along

Verses

I rode in the mini with the stereo on,
Whilst kids got excluded coz schools got it wrong.
Was our Christmas tree beautiful? Too many steps to see
Does goodwill to all not include me.

We are part of this community, we have our say
Who didn't get to vote on election day?
Have you shared your stories of community past?
Do you know your neighbours, do you even ask?

Went punk with our funky multi-sensory flair
Whilst people drowned in bathtubs no dignity there
Do you choose your friends and what you get to see?
Share our values? sing along with me.

We played a concert to a packed out crowd.
Travelling with our friends was not allowed
People dying in trucks for democracy
Would this happen to a V.I.P

Working 9-5, oh to be so lucky
Less than minimum wage, you don't value me.
Equal access to every opportunity.
Be the change that you want to see.

Chorus-

Was it a good year	See the change
We got a new song	Be the change
You can shout it out	Make the change
Or you can sing along	Thank you
